BEFORE YOUR WALK

A few things make the experience better

Charge your phone

GPS, audio and screen use can consume more battery than ordinary browsing.

Bring headphones

The narration is designed to accompany the city without disturbing the people around you.

Allow location access

Location access helps ChronoWalk guide you between stops and recognize your progress.

Open the tour with internet access

Load the experience before you begin, especially when mobile coverage may be inconsistent.

Wear comfortable shoes

This is a walking experience through active streets, historic surfaces and archaeological areas.

IMPORTANT

Your purchase is for personal use.

Do not share your access link, account credentials, audio, scripts, reconstructions or other ChronoWalk content.
